<b>Fund size:</b>	<b>R 2 196 139</b>
<b>Target return:</b>	CPI + 3%

**Total expense ratio (TER)**

A Total Expense Ratio (TER) is a measure of a portfolio's assets that are relinquished as operating expenses. The total operating expenses are expressed as a percentage of the average value of the portfolio. Included in the TER is the proportion of costs that are incurred by the performance component, fee at target, trading costs (including brokerage, VAT, STT, STRATE and insider trading levy) and other expenses. These are disclosed separately as percentages of the net asset value. A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs.
