Total Expense Ratio (TER)	1.15%
Weighted TER portion of underlying	1.15%
Performance Fees	0.00%
Transaction Costs (TC)	0.00%
<b>Total Investment Charges (TIC)</b>	<b>1.15%</b>

TER: expenses relating to the administration of the Financial Product. A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not be necessarily an accurate indication of future TERs.

TC: Costs relating to the buying and selling of the assets underlying the Financial Product.

TIC: Transaction costs are a necessary cost in administering the Financial Product returns. It should be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Financial Product, the investment decisions of the investment manager and the TER.

### Disclaimer

This is a minimum disclosure document and general investor report. Collective Investment Schemes are generally medium to long term investments. The value of participatory interests may go down as well as up. The manager does not provide any guarantee either with respect to the capital or the return of a portfolio. Past performance is not necessarily an indication of future performance. CIS's are traded at ruling prices and can engage in borrowing and scrip lending. Different classes of units apply to these portfolios and are subject to different fees and charges. A schedule of fees and charges and maximum commissions is available on request from the manager. The manager has a right to close portfolios to new investors in order to manage them more efficiently in accordance with their mandates. Commission and incentives may be paid and if so, will be included in overall costs. Forward pricing is used. The manager may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. Income is re-invested on the re-investment date. Actual investment performance will differ based on the initial fees applicable, the actual investment date and the date of reinvestment of income. Dealing prices are calculated on a net asset value and auditor's fees, bank charges and trustee fees are levied against the portfolios. Performance is calculated for the portfolio, as well as that the individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. Recurring investments or lump sum investment performance. Income distributions are included in the performance calculations prior to deduction of applicable taxes. Performance numbers and graphs are sourced from GTC. NAV to NAV the member of ASISA.
