

## Introduction

One of GTC's subsidiary companies, GTC Derivatives (Pty) Ltd is a Broking Member of the Johannesburg Stock Exchange (JSE) Equity Derivatives Market and an authorised Financial Services Provider (FSP 36823).

The GTC Derivatives online platform (SAXO Capital Markets) is a self-trading platform, which offers both local and international exposure to Equities, Commodities and Foreign exchange. These positions can be undertaken on a geared or non-geared basis and offers investors the ability to be long or short of the market.

## What differentiates us?

The GTC Derivatives team has, with the combined experience of our members, over 70 years industry experience. Since 2007 we have been able to offer clients trading access to local and foreign markets. Our innovative and dedicated traders and service consultants pride themselves on providing a personalised service to our clients. Clients are able to trade on the JSE and global markets, with the ability to choose from a variety of products that suit their needs and risk profile, at very competitive rates. An added benefit is the GTC 'One Minute Brief' – a daily newsletter which provides a snapshot of the markets to subscribers.

Team leader Mike Bolus, B.Com, B.Acc, has been the Managing Director of GTC Derivatives since the company was established in 1997. Mike is a member of the South African Institute of Stockbrokers and has been trading equities and derivatives since 1987, occupying various senior positions in a number of stockbroking companies over his career.
