As of 31/10/2019

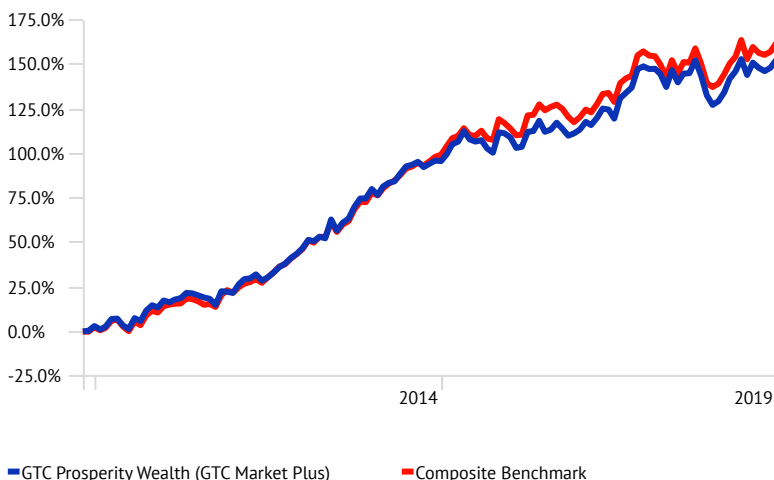

Investment mandate and objectives

This is a higher risk portfolio which has a direct market focus as opposed to an inflation targeting strategy. The objective of this portfolio is to outperform a market benchmark portfolio, constructed using market indices, over rolling 10 year periods. This portfolio has been designed for capital growth through direct market exposure, accepting that there will be periods of greater volatility and market shocks from time to time. The portfolio will have maximum international equity exposure which offers diversification and a local currency hedge.

- Features:**
- Regulation 28 compliant
 - Maximum equity exposure
 - Multi-asset class exposure
 - Local and international exposure
