

As of 30/04/2022

Investment mandate and objectives

The objective of this portfolio is to outperform the CPI + 1% target over rolling 3 year periods with a reduced probability of negative returns over rolling 12-month periods. The portfolio has been designed for capital protection through reduced volatility.

The portfolio utilizes asset allocation and downside protection to deliver consistent positive returns through most market conditions. The portfolio has international exposure of between 15% and 20%, which offers diversification and a local currency hedge.

Features:

- Regulation 28 compliant
- Local and international exposure
- Multi-asset class exposure
- Capital preservation

Risk profile of the fund

Low Risk
