## Quarterly Commentary

The first half of the year has been marked by historic sell-off's in global investment markets. 2022 has so far been the worst 6 months on record for developed markets (MSCI World) since 1970. This illustrates the sheer scale of the market volatility and uncertainty which afflicts investors currently.

Global developed equity markets retracted some -16.2% over the quarter and -20.5% for the year in USD terms, while emerging markets experienced an -11.5% and -17.6% sell-off over the same periods in USD terms.
